

Class evaluation (free-style)

1. Overall, did you enjoy this class?

Yes, I really enjoyed class, reading assignment, and homeworks.

2. Please pick up the topic(s) in the class that are interesting for you.

Mathematic argument (like IS-LM curve)

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

To analyze old monetary problem in Japan by new method used in these times is novel and interesting.

4. Are homeworks difficult? Are homeworks useful for enhancing your understanding?

Yes, its were difficult but I can understand the class well by homeworks.

5. What are the most interesting graphs that you learned in this class?

IS-LM curve, because many elements of economy are in this graph and we can mathematically solve the problem with it.

5. Please write a constructive comment that the instructor can use for this class in the next year.

I want you to continue this style of class next year.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes, I could mention my idea.

2. Please pick up the topic(s) in the class that are interesting for you.

Depreciation Japanese Yen related with intervention and Greek Crisis.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

Very interesting. Not so difficult.

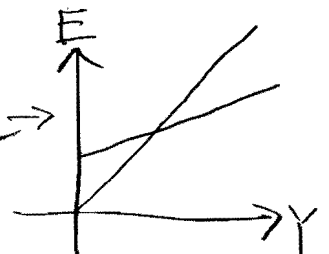

I could enjoy reading and answering the assignment.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Homeworks are difficult for me.  
But they are very useful.

5. What are the most interesting graphs that you learned in this class ?

I don't know the correct name of this graph →

5. Please write a constructive comment that the instructor can use for this class in the next year.

Powerpoint is very useful for understanding.

So I want Mr. Naito to continue  
upload the class slide  
and update the homework quickly.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes. Teacher explained the world economic condition at the beginning of class, it was interesting for me.

2. Please pick up the topic(s) in the class that are interesting for you.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It was very interesting for me, and it was easy because writer says same thing many times. It was good for me.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Sometimes difficult. By solving problem, I could review the class. So it was useful for me.

5. What are the most interesting graphs that you learned in this class ?

IS-LM

5. Please write a constructive comment that the instructor can use for this class in the next year.

宿題をもっと早く出さなければ、解答がもっと丁寧であらうと思った。思いました。

板書を板際、数式がごちゃごちゃになる。条件式はorb' 式はorb' ねじりなくなると、たごがありがたかったです。

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

The class was quite educating but more problem solution in class is needed for better understanding of the lectures.

2. Please pick up the topic(s) in the class that are interesting for you.

The IS-LM MODEL

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It is okay but too much because it doesn't give me much time or room to study for other class.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

I think they really helped me to understand the course better.

5. What are the most interesting graphs that you learned in this class ?

The IS-LM curve.

5. Please write a constructive comment that the instructor can use for this class in the next year.

More problem solving in class should be introduced for better understanding of the course not only prove of formulas.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes

2. Please pick up the topic(s) in the class that are interesting for you.

Almost all of them.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

The book was very interesting to me. The assignment was not so easy but it was good study to me because I understood that we can explain

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Sometimes the homeworks included difficult questions but thanks to every-week homeworks, I understood the points of the lecture.

monetary policy and money  
money by theory and model  
regardless of the era.

5. What are the most interesting graphs that you learned in this class ?

Solow model

5. Please write a constructive comment that the instructor can use for this class in the next year.

Class evaluation(free-style)

1. Overall, did you enjoy this class ?

Yes, I did.

It is a first experience that stimulates my greed for knowledge.

2. Please pick up the topic(s) in the class that are interesting for you.

IS - LM model

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

Reading assignment itself is very interesting, but it is also difficult.

Maybe, I don't know how I approach this issue well, still reading assignment is very useful.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

If homeworks were not imposed, I would not enhance my understanding.

Frankly speaking, I appreciate imposed homeworks.

5. What are the most interesting graphs that you learned in this class ?

I can't narrow several graphs to the most interesting ones.

5. Please write a constructive comment that the instructor can use for this class in the next year.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Many knowledge this class offered were very interesting, and I think I can go next step of economics. So I can say I enjoyed this class.

2. Please pick up the topic(s) in the class that are interesting for you.

IS-LM model  
MPC

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

The book was interesting I think.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Difficult but because of it I had to study harder, which enhanced my skills.

5. What are the most interesting graphs that you learned in this class ?

Graph of Consumption function

5. Please write a constructive comment that the instructor can use for this class in the next year.

I think it is better that homeworks are uploaded on the web earlier.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes - Was one of the most exciting class.

2. Please pick up the topic(s) in the class that are interesting for you.

Monetary and fiscal policy

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

Its interesting and educative. But due to time constraints sometimes it could get your attention from other equally important things. suggest 4 assignment.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ? Not very difficult if you study and review.

5. What are the most interesting graphs that you learned in this class ?

Monetary and fiscal policy graph

5. Please write a constructive comment that the instructor can use for this class in the next year. other assignment.

The reading assignment was wonderful and very educative. Its important to have it, always. Not very easy but worthy it.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

Shogun gold

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It is difficult for me.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

They are useful. I could confirm how much I understand every week.

5. What are the most interesting graphs that you learned in this class ?

IS-LM model

5. Please write a constructive comment that the instructor can use for this class in the next year.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

MONEY & INFLATION.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

- It was interesting although sometimes it was a lot.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

- Yes they are useful in helping one understand the various topics.

5. What are the most interesting graphs that you learned in this class ?

- The IS-LM curve

5. Please write a constructive comment that the instructor can use for this class in the next year.

- Drawing comparisons of current ~~and~~ events and what is taught in class helps create practical examples.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes

2. Please pick up the topic(s) in the class that are interesting for you.

The reason of Japanese appreciation today.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It's interesting and not so much difficult. The book tell me the importance of understanding of monetary system.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Homeworks are not so much difficult. They are helpfull for my understanding the class.

5. What are the most interesting graphs that you learned in this class ?

ISLM

5. Please write a constructive comment that the instructor can use for this class in the next year.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

yes

2. Please pick up the topic(s) in the class that are interesting for you.

Internal debt / reading assignment

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It needed some work and time to read whole book but it was interesting to read and understand about problems during Edo era.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Some were difficult and some were easy.

Yes, it was useful. Answering question can enhance my understanding.

5. What are the most interesting graphs that you learned in this class ?

5. Please write a constructive comment that the instructor can use for this class in the next year.

Examples . Introduced during the class was helpful to understand lecture / new topic. Without the examples, the lecture might have been very difficult for me.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes, I did.

2. Please pick up the topic(s) in the class that are interesting for you.

The most interesting topic was economic growth and the movements of the IS-LM curve.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It was easy to read because it was written like a story and it was interesting story to read.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Some homeworks were difficult, but it helped me to understand the lecture we did before.

5. What are the most interesting graphs that you learned in this class ?

IS-LM model

5. Please write a constructive comment that the instructor can use for this class in the next year.

I think it would be helpful if there are always some slides to look at during the lecture.

There were slides on the web site during the first half and that was helpful.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

The topic of inflation and deflation.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It was interesting and it wasn't easy nor difficult.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

#PS 6 was difficult especially. However, They helped me to understand the topics and mechanisms.

5. What are the most interesting graphs that you learned in this class ?

The graphs of the saving and GDP.  
the relationship between

5. Please write a constructive comment that the instructor can use for this class in the next year.

I think it is more helpful if you get students informed of which questions to solve as homeworks.

This is because we need time to consider  
not a little

about questions.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes, macroeconomics is the overall picture of Nation's economy.

2. Please pick up the topic(s) in the class that are interesting for you.

IS - LM curve

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It's too long however it was interesting to read <sup>deeply</sup> when there is time

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Homeworks were of average difficulty. They were very useful to understand the class.

5. What are the most interesting graphs that you learned in this class ?

GDP versus health indicators

5. Please write a constructive comment that the instructor can use for this class in the next year.

Some more practical exercise on the compilation of GDP could be useful.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Almost yes. But I felt difficulty to understand some logics.

2. Please pick up the topic(s) in the class that are interesting for you.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It was interesting and not so difficult.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

They were difficult but useful at some points.

5. What are the most interesting graphs that you learned in this class ?

IS - LM model's graph

5. Please write a constructive comment that the instructor can use for this class in the next year.

Sometimes I couldn't read the words written on the blackboard

I hope the midterm test will be returned to the student.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes I did.

2. Please pick up the topic(s) in the class that are interesting for you.

Imputation, IS-LM model.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It was interesting and difficult.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Homeworks are not so difficult (Sometimes difficult). It was very useful for enhancing my understanding.

5. What are the most interesting graphs that you learned in this class ?

Solow model.

5. Please write a constructive comment that the instructor can use for this class in the next year.

Please write on Black Board more logically and smart.

Class evaluation (free-style)

1. Overall, did you enjoy this class?

Yes. Although catching up with class is hard for me, professor taught us not only the text book's contents, but also present economic news and problem.

2. Please pick up the topic(s) in the class that are interesting for you.

"Deflation trap"

"Creation of money"

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

The book itself is very interesting, but at the same time, it is a little difficult to understand because of complicated exchange rate.

4. Are homeworks difficult? Are homeworks useful for enhancing your understanding?

The homeworks aren't so difficult than I thought, but these were time-consuming. But it helps me sort theories out in my head.

5. What are the most interesting graphs that you learned in this class?

None especially.

5. Please write a constructive comment that the instructor can use for this class in the next year.

I think it is better to take time to discuss the reading assignment. I wanted to share ideas about what policy had to be done with other students.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes, I enjoyed.

2. Please pick up the topic(s) in the class that are interesting for you.

About Greece economic problem.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

The topic was highly interesting.  
It's not that difficult.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Sometimes, homeworks were difficult but it's enhanced my understanding.

5. What are the most interesting graphs that you learned in this class ?

IS-LM model.

5. Please write a constructive comment that the instructor can use for this class in the next year.

This class was very interesting because it has given students some fundamental economic ideas of clarifying the economic complexity of real world. I'd appreciate if all pdfs were distributed before each lesson and

Class evaluation (free-style)

1. Overall, did you enjoy this class?

So-so.

It wasn't easy for me to enjoy the class with understanding it fully.

2. Please pick up the topic(s) in the class that are interesting for you.

~~X~~ The Solow Model.

It can be applied when studying about developing country's economy.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It was really interesting, although difficult to answer questions.

4. Are homeworks difficult? Are homeworks useful for enhancing your understanding?

Home works are ~~so~~ difficult that I couldn't have time to prepare for next class lessons. I couldn't keep doing homework.

5. What are the most interesting graphs that you learned in this class?

No idea.

5. Please write a constructive comment that the instructor can use for this class in the next year.

I think homework should include both aspects of reviewing and preparation for the next lessons.

Thank you for your teaching macroeconomics.

Class evaluation (free-style)

1. Overall, did you enjoy this class? *Yes,*
2. Please pick up the topic(s) in the class that are interesting for you.  
*Short run, long-run, open and close economy.*
3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion. *The reading assignment is interesting to me but it a little bit difficult.*
4. Are homeworks difficult? Are homeworks useful for enhancing your understanding? *Yes, the homeworks also enable me to understand the class very well but it a little bit difficult.*
5. What are the most interesting graphs that you learned in this class?  
*IS-LM, graph, long-run graph and the graph of interest rate.*
5. Please write a constructive comment that the instructor can use for this class in the next year. *To reduce the assignment or maybe still increase the mark of the assignment. I also think that it will be good for student to submit a final report than writing exam in the class. ~~The instructor can~~ I think it will be good for the instructor to make out time for student to meet him after the class.*

Class evaluation (free-style)

1. Overall, did you enjoy this class?

Overall the class was good, I learned a lot of new concepts about the economy.

2. Please pick up the topic(s) in the class that are interesting for you.

IS-LM model

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It was very big but interesting

4. Are homeworks difficult? Are homeworks useful for enhancing your understanding?

Homeworks were useful and enhanced understanding of the subject

5. What are the most interesting graphs that you learned in this class?

Keynesian cross & ISLM

5. Please write a constructive comment that the instructor can use for this class in the next year.

In addition to the materials provided, the class requires materials from Keynesian cross to Mundell Fleming model.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

The book is interesting and not so difficult to read because it is written with interesting story.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Not so much difficult.

To do homeworks, I needed to read textbook, and this made me understand more.

5. What are the most interesting graphs that you learned in this class ?

5. Please write a constructive comment that the instructor can use for this class in the next year.

Maybe it is better that homeworks are update earlier.  
( Personally I have more time weekdays than weekends.)

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

About Greek.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

I enjoyed reading assignment. It was a little difficult.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

They were sometimes very difficult but they were useful to understand

5. What are the most interesting graphs that you learned in this class ?

IS-LM model, but it was pretty difficult for me.

5. Please write a constructive comment that the instructor can use for this class in the next year.

Homeworks should be uploaded quickly.

Class evaluation (free-style)

1. Overall, did you enjoy this class ?

Yes.

2. Please pick up the topic(s) in the class that are interesting for you.

Economic development theory.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

So interesting! It's not so difficult but it deepens my understanding.

4. Are homeworks difficult ? Are homeworks useful for enhancing your understanding ?

Sometimes, there are difficult ones, but very good for help understanding.

5. What are the most interesting graphs that you learned in this class ?

Solow model with technological changes.

5. Please write a constructive comment that the instructor can use for this class in the next year.

Thank you very much for having me study a lot.

I'm greatly satisfied with this class, overall.

Class evaluation (free-style)

1. Overall, did you enjoy this class?

Yes, but sometimes it was hard to understand details because of English exposition & Mathematical skills.

2. Please pick up the topic(s) in the class that are interesting for you.

It may be <sup>because of</sup> the lack of my knowledge, but simply equation Investment = Saving was pretty impressive for me.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It was interesting to read, but while I was reading I somehow felt anger to Harris and those other people ... it sometimes hampered me of reading it!

4. Are homeworks difficult? Are homeworks useful for enhancing your understanding?

They were always pretty difficult for me, but I'm sure without HWs I would have understood nothing.

5. What are the most interesting graphs that you learned in this class?

Not really a graph it's rather a compute soft, but GAPMINDER Desktop that professor showed us in the class was exciting!

5. Please write a constructive comment that the instructor can use for this class in the next year.

I would like to ask professor to distribute not all the power points, but at least part of them that he showed in the class.

During the class it was sometimes difficult for me to copy formula or equation while professor was talking.
