

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

I enjoyed ^{too} many homeworks and reading assignment.

2. Please pick up the topics in the class that are interesting to you.

All topics.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It was interesting and a little difficult.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Very difficult and greatly enhance my understanding.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

I think students should start from more basic knowledges about economics.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

- Of course yes Specially after the middle of the class / half of the class

2. Please pick up the topics in the class that are interesting to you.

- IS-LM and Solow growth Model.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

- Very interesting and unbelivable attitude during the time Specially the Shogun gold, but I recommend it to be given in broad sense in the japanese economy class.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

- Very helpful Problem Sets, to keep in touch with the course very understandably.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

- Really I enjoyed the class, specially at last two topics I understood what macro-economics is about.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class? Yes!

2. Please pick up the topics in the class that are interesting to you.

Inflation.
Sollow's Model.
IS-LM (curves) model

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

Very Interesting. The reading was not difficult.
~~I~~ I learned much from the reading assignments.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Prop. Problem sets were appropriate. Yes, they were very useful.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

I learned much from the class.
I am satisfied and have no comments for improvement.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

Yes, thank you!

2. Please pick up the topics in the class that are interesting to you.

Economic growth rate (last topic)
Money and Inflation +
Edo period reading assignment

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

Reading assignment was the most interesting task because it was a good practice on Money and Inflation topic. It was not difficult if you read the Money and Inflation chapter

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Problem sets are normal and useful to more proper understanding. And also problem sets was joyful to recover with group

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Group making among students was very helpful.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

yes.

2. Please pick up the topics in the class that are interesting to you.

Long-run model

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

*It is interesting and easy to understand.
But some question was difficult.*

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

It was difficult but useful.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Class Evaluation of Intro-Intermediate Macroeconomics

(free style)

1. Over all did you enjoy the class?

Really enjoyable BUT should consider time for digesting by brains of all topics as this is a very important course and its content.

2. Please pick up the topics in the class that are interesting to you.

Money and Inflation.
Interesting to see how to deal with policies including inflation in various situation.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

OK, lots of reading to do but very interesting to know ~~how~~ the economic situation of Japan and how the govt was trying to use such policies to curb such problems experienced.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Very useful to enhance understanding and knowledge and it is really good and effective way of using group discussion.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Encourage group discussion in all assignments, as the content of the course is too much to digest at a very short time but with group discussion it really helps in addition to the lecture. Hope to have ~~the~~ macroeconomic course in the Graduate level.

Class Evaluation of Intro-Intermediate Macroeconomics

(free style)

1. Over all did you enjoy the class?

楽しかったが、しつかりと学ぶことはできました。

2. Please pick up the topics in the class that are interesting to you.

江戸後期におけるインフレ。

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

大君の通貨は面白かったが、2つ目の株式市場に関するものは、難しいと感じた。

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

難しかったが、理解を深めるにはできたと思う。

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

宿題はもう少し早く出して欲しい。もうごなしと、グループワークという性質上、予定が合おせづらい。

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

Yes, I did.

2. Please pick up the topics in the class that are interesting to you.

The Solow model.

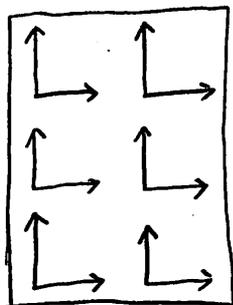

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It was interesting and not so difficult.
I could read and solve questions with a lot of time.
But the limit and amount of reading assignment are difficult for me to do.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

They aren't difficult. But they helped me to understand what I learned in this class.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

：人々感じのグラフを書く用の用紙をください

と思ふものでした。

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

Yes, almost.

2. Please pick up the topics in the class that are interesting to you.

"money growth rate & income."

Professor showed us graph in motion.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

it was interesting but also difficult.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Yes.

I thought we need more time to solve those sets.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

It was almost first time for me to take class discussed only in English. Though I was really concerned about the level of this class, ^{at first} I tried hard with my friends' help and really enjoyed it.

Class Evaluation of Intro-Intermediate Macroeconomics

(free style)

1. Over all did you enjoy the class?

Yes,

2. Please pick up the topics in the class that are interesting to you.

IS-LM model and Keynesian Cross model

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

Shogun and Stock market reading too demanding given that we had to do other problem sets and read the textbook too. I don't ^{think} a 200 page book is necessary for a reading assignment especially during exam preparation.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

- NOT Difficult Questions

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

① The class should contribute credit to graduate students

② Reading assignment (Shogun & Stock market) should be optional or given at the beginning of the term

③ The topics were kind of not chronological at one time I got confused whether we were doing chapter 3 or 10

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

Yes.

2. Please pick up the topics in the class that are interesting to you.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ?Please state your opinion.

it was interesting and easy to read.
but problems were difficult.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

very very difficult.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Thank you.

(free style)

1. Over all did you enjoy the class?

Yes.

2. Please pick up the topics in the class that are interesting to you.

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ?Please state your opinion.

It's interesting but little difficult to understand.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

They're sometimes difficult so that I couldn't solve all questions with the text book. They, however, helped me to understand.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

YES

2. Please pick up the topics in the class that are interesting to you.

Money and Inflation

Economic Growth

3. What do you think about reading assignment ? Is it interesting or boring? Is it difficult or easy ? Please state your opinion.

It is a good way to understand some underlying concepts in macroeconomic theory on a more practical level. They are very interesting and thought provoking thus very important part of the course

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

They are not easy but also not very difficult. They are useful and surely help enhance my understanding

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Sometimes the Professor was too fast in his explanations so I suggest that the speed be reduced. Overall this is a good course and the Professor displayed intense interest and knowledge in this course.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

Yes

2. Please pick up the topics in the class that are interesting to you.

Solow growth model. Application was most interesting.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

The reading assignment was very interesting but time for the second one was a bit short. It may better to provide both reading materials at the beginning of the semester.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

They are not too difficult but they definitely enhance understanding of the material.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Particularly enjoyed the real world examples that were provided for some of the ~~ex~~ topics and the group discussion questions in assignments. Appreciated that trouble was taken to involve all students in class interaction.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

→ I enjoyed the class fully.

2. Please pick up the topics in the class that are interesting to you.

→ Cost of Capital and Fisher equation concept was interesting and more relation with Japanese current situation was good. Derivation IS-LM curve also gave some interesting facts of 9-11.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

→ At first, I felt pressurized more but after finishing reading and doing questions, I became fully satisfied. It provided a lot of practical knowledge to tie up with theory.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

→ Very Useful. All the problem sets were directly related with class lectures. It helped to enhance my understanding.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

→ Problem sets and reading assignments are very helpful. It should continue. ~~and~~ In overall, class is very impressive, commanding and good.

Reading assignment 1.

次善策を考えたり、水野の政策に足りなから、たもの指摘が問題。

Monetary Policy.

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

• Reading assignment 1 ... interesting / proper.

• Reading assignment 2 ... short of time.
please postpone the due date.

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

• Proper.

• They were very helpful to make further understanding.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

- I enjoyed this class very much.

- I like this class style : interactive communications between
teacher --- students and students --- students.

- The PS were very helpful, but sometimes the issuing date is a little late.
I wished it had been issued on Wednesday.

- I wanted to learn about open economy model.

Class Evaluation of Intro-Intermediate Macroeconomics
(free style)

1. Over all did you enjoy the class?

I wanted to, but I couldn't.

That is because I couldn't understand mathematical calculations even in Japanese well, so I couldn't understand them in English at all.

2. Please pick up the topics in the class that are interesting to you.

Government Bond & Interest rate

3. What do you think about reading assignment? Is it interesting or boring? Is it difficult or easy? Please state your opinion.

It's not boring, but difficult for me.

I don't wanna do again in English...

4. Are problem sets difficult? Are problem sets useful to enhance your understanding?

Of course they are useful to enhance my understanding.

But I couldn't understand classes, so I couldn't solve them without friends' instructions.

5. Please write any comment for this class. Constructive comments that help to improve this class will be very appreciated.

Anyway I think your English was easy to listen to.
